VISU SAFE

Welcome
to our **NEW**
Impact Protection
and Safety range

visU SAFE

A collection of innovative products that solve the traditional problems of:

- Severe impact damage to your buildings and equipment
- Protecting valuable assets and human resources
- Keeping your property in pristine, sustainable condition
- Lowering your maintenance, repair and replacement costs
- Improving safety conditions for operators, staff and visitors at your facility
- Decreasing potential accidents or injury
- Increasing a culture and behaviour of safety for all
- Raising high-visibility traffic control

*Introducing our newest
sustainable solution: **Visusafe.***

Intelligently designed to protect your workspace on a long-term basis and improve human resource safety, for outstanding value and genuine durability.

Not only are Visusafe products cost-effective and aesthetically distinguishable, they are also the best in the industry for superior impact protection and improving safety in the workspace.

We've spent time developing our impact protection products using steel, rubber and polymer – a super high quality safety material that looks good, and doesn't cost the earth.

High visibility colours and reflectors also help reduce the likelihood of avoidable collisions and accidents.

*Keeping **YOU** safe!*

Features and Benefits

- Industry leading impact protection
- UK manufactured
- Impact-tested
- Innovative designs
- Easy to assemble
- Made from polymer and steel; better looking and half the cost of traditional methods
- All impact protection products can be used indoors and outdoors
- Sustainable – long-lasting and recyclable
- Improved traffic control and safety
- Highly visual colours and reflectors for increased visibility
- Weather resistant
