

racksack®

**A compliant, space-saving
efficient way for businesses
to segregate waste in the
industrial workplace.**

racksack®

Waste management problems are easily solved with the racksack®. Ideal for most warehouse racking systems, the racksack® quickly fixes to the end of your racking frame.

The racksack® is designed for most racking and shelving systems between 900mm and 1100mm. Once full, it can be removed and emptied with ease. When hung it has a large open mouth to easily receive waste, yet its tapered design enables it to hardly encroach into the floor area.

Originally designed for the warehouse the racksack's® flexible method of 'S' locator fixing means it can be hung over or hooked onto any substrate. The racksack® has also established itself a place in other industrial areas such as factories, offices or anywhere where waste is a problem.

Made from tough waterproof polyester the racksack® can adequately withstand the rigours of an industrial environment. Three strong handles are woven into the edge of the sack, one on each side for carrying and one on the base, so that the sack can be easily tilted from the base and emptied.

Capacity - 160 Litres

The racksack® handles are double stitched to tough woven polyester

Each sack is supplied with 2 fixing hooks

Choose a colour

racksacks® are available in two fabric colours, either blue or clear with a blue backing.

Please specify colour required when ordering (B/CL) ☒ ☐

Please note colours available are standard blue or premium clear.

Designs

racksacks® are available in 14 standard text designs - with 13 printed waste segregation options, plus a completely blank sack.

Please specify design required when ordering. For example, general waste design in green would be RSB1/GW.

 General Waste GW White	 Mixed Paper & Card MP Blue	 Cardboard C Cardboard	 Plastic Only P Red	 Plastic Strapping PS Red	 Shrink Wrap SW Red	 Mixed Recycling MR Green
 Metal M White	 Aluminium A White	 Wood & Timber WT Brown	 Building Material BM Brown	 Electrical E Magenta	 Glass GL Turquoise	 BLANK BK Blank

International Designs

Five new prints have now been added to the racksack® range. Visually communicative symbol only designs for worldwide use.

These five designs are also available in racksack®clear.

racksack® clear

racksacks® are also available with a clear front. The clear material helps identify when incorrect waste has been accidentally placed in the wrong segregation sack. The transparent design also enhances security measures to prevent theft.

Available in 10 standard designs, 5 text designs, including a blank sack and the 5 new symbol-only designs.

Brand your racksack®

Other designs and special prints including logos are available on request.

Customise your racksack® with your company name or logo, any waste product symbol or text you require and in any one colour print. Available in all fabric colours including clear.
