

Interroll Carton Versi Flow
**Improve the flexibility of
your picking process**

Interroll Carton Versi Flow

Optimize your order picking

Picking goods is part of the daily routine in a warehouse. Various systems are available to simplify and optimize the job when it comes to goods of the same size. However, when cartons and containers of different sizes must be stored and picked, Carton Versi Flow is the best solution.

While the shelves are loaded on the feed side, goods are simultaneously removed on the output side. This assures an efficient and error-free picking process.

Interroll Carton Versi Flow guarantees quick access to the items and ergonomically improved storage and output of goods at operating temperatures between -30°C and $+45^{\circ}\text{C}$. Carton Versi Flow also fits perfectly into existing shelving systems – the continuous modules with aluminum carriers are compatible with all common rack crossbars.

Beam types

Wheel pitch

Product overview

Technical Data

Load	up to 230 kg per module
Module Length	524 – 2378 mm
Width	282 mm and 356 mm
Slope	5° to 7°
Ambient temperature	-30°C to + 45°C
Min. wheel pitch	50,8 mm

Aluminum or bended brackets

Optional full length or entry guides

High density storage with up to 90 percent space utilization

Food storage

Automotive industry

Home furnishings

Your Benefits

☺ **Flexibility**

For applications where dimensions and weights of goods vary. Ideal for seasonal order processing.

☺ **Flowability**

Large diameter polycarbonate wheels assure easy flowability of goods with soft or dump bottom.

☺ **Compatibility**

Easy installation into any beam shape thanks to the loading/unloading beam connectors.

☺ **Simple retrofitting**

Ideal solution for retrofitting into existing raking, suitable for all common support beams.

☺ **Permeability**

Carton Versi Flow modules are fully “open” to allow dust, pieces of carton or other debris to go through the wheels without influencing flowability.

☺ **Fast assembly**

No special tools or costly time is required. Carton Versi Flow modules are delivered ready to be put between beams.

☺ **Ergonomic operation**

Goods are always available at the pick face to minimize the operator fatigue.

☺ **Maintenance free**

About Interroll

Established in 1959, Interroll has grown to become the world's leading supplier of key products for internal logistics. Whether boxes, pallets or soft goods are to be handled, no other supplier has such a complete product range on offer.

That is why system integrators, OEMs and operators select Interroll as their partner for their logistics business. Worldwide.

The Interroll global network ensures quick delivery and superior service for every local customer. We inspire our customers and provide opportunities for them to increase efficiency.
