PRODUCT SPOTLIGHT

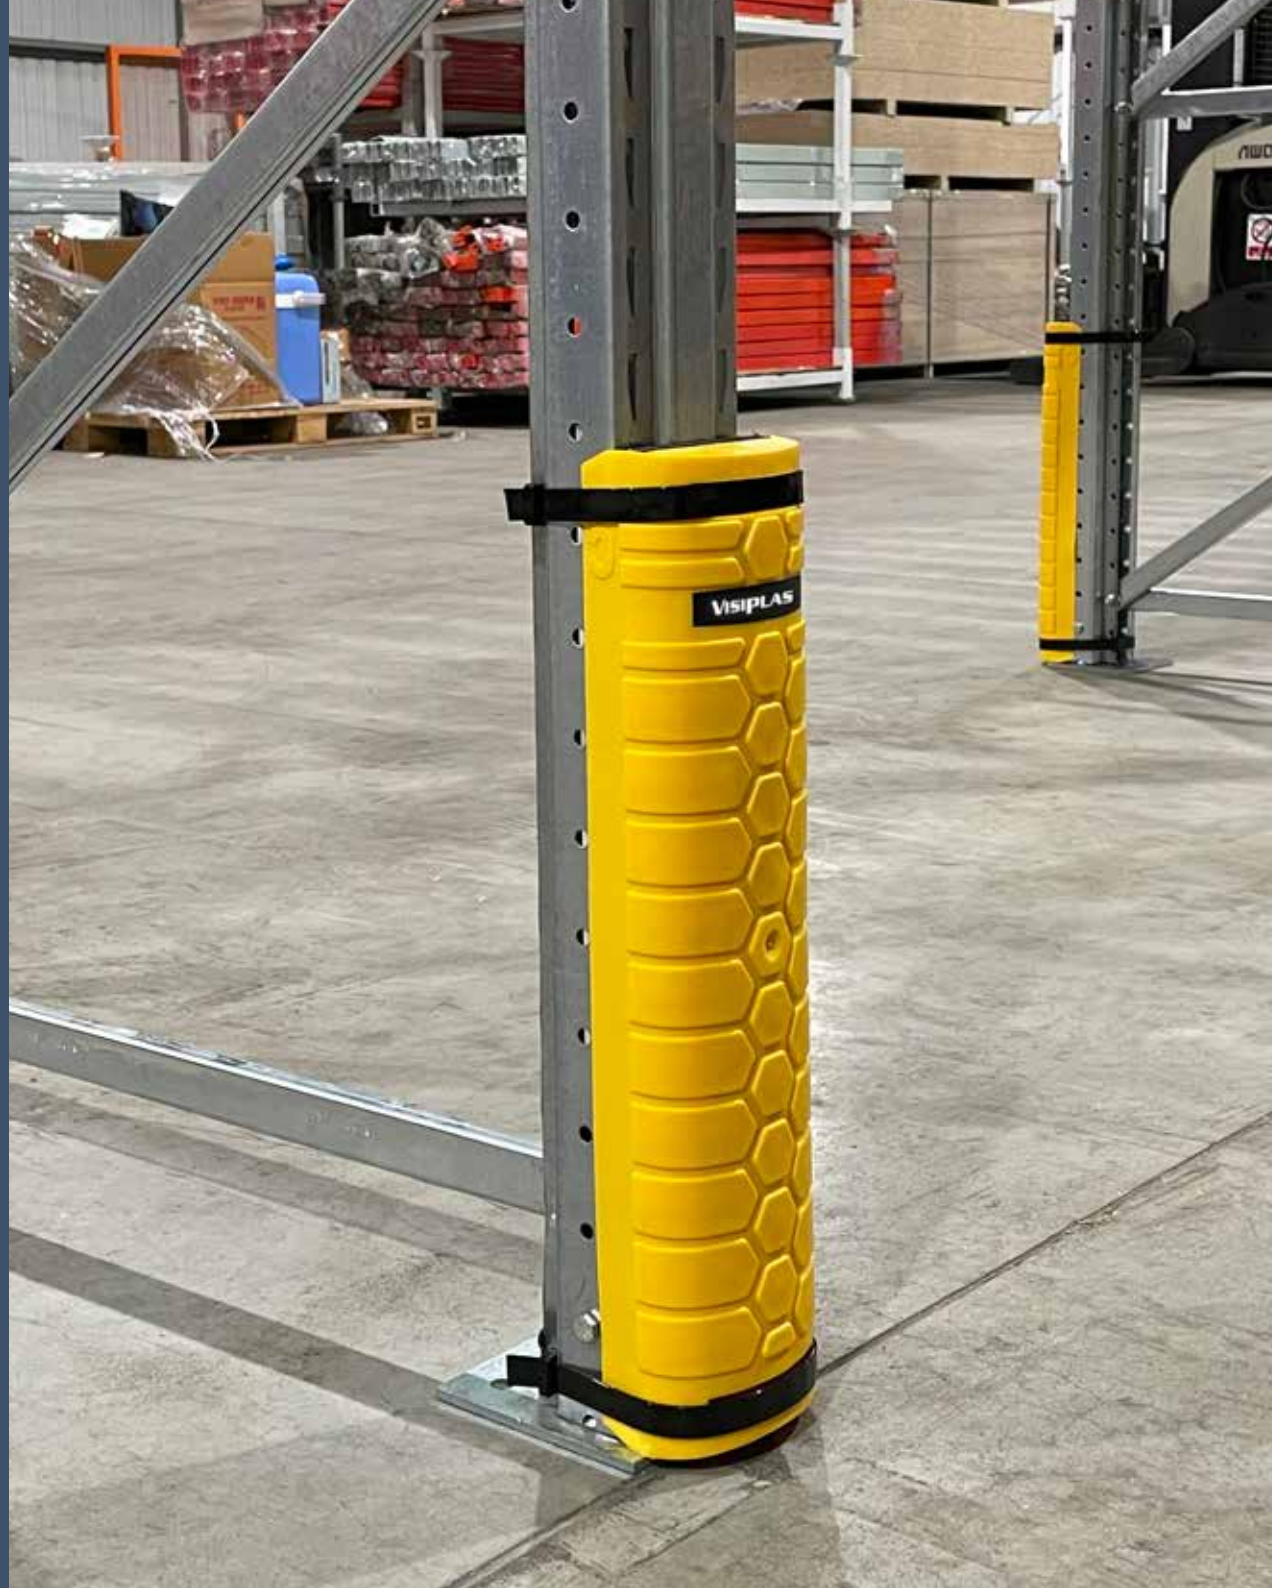

UPRIGHT RACK PROTECTORS

Our moulded rack protectors offer a high visibility bumper, which suits many of the leading pallet racking systems.

Ideally suited for intermediate uprights with a slim profile that does not reduce the clear opening of the bay.

The unique design allows the impact to be absorbed within the protector whilst having the ability to reform after impact. Each guard is quickly installed onto the face of the upright with two cable ties (an additional cable tie is supplied for every protector for maintenance)

- **Cost effective pallet rack protector**
- **Tough impact resistant**
- **High visibility yellow**
- **Energy absorbing design**
- **Easily fitted and removed**
- **Certified to impact loads specified in EN15512-2009**
- **Made from polyethylene compounded plastic**

 Heights	 Widths	 Depths	 Application	 Construction	 Loadings
Height (mm) 500	Widths (mm) 79,105	Depths (mm) 44	Environment Warehouse Workshop Storeroom	Plastic: Polyethylene compounded plastic	Certified to impact loads specified in EN15512-2009

Choose your upright protector size size

AVB = 79-92mm
AVC = 92-105mm

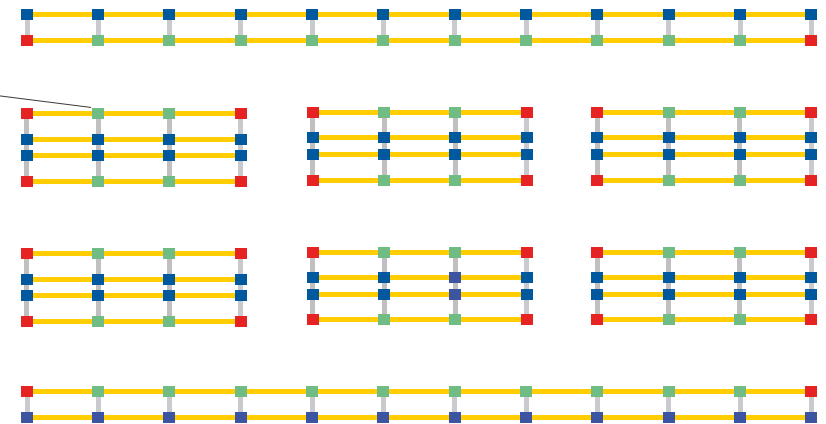

Description	Code	Upright Width	Colour	Price
Visiplas Rack Upright Protector	AVB	79 - 92mm	Yellow	£19.95
Visiplas Rack Upright Protector	AVC	92 - 105mm	Yellow	£20.70

① Each protector comes with 3 cable ties. Two cable ties required for each protector. Additional cable ties can be ordered separately. Size : 610mm (W) X 16mm (H) Made from Nylon plastic.

- Absorbs the impact energy preventing damage to the upright
- Available in several widths to suit different manufacturers' uprights
- Protectors are 500mm high and can be stacked two high (1000mm)
- Simple attachment to the rack uprights with 2 cable ties.
- Fast installation & easy to carry out maintenance checks
- Narrow design without reducing the clear entry of the bay
- High visibility yellow colour enhances position of upright location
- Injection moulded from a high impact plastic compound
- Distributes the collision load to an internal energy absorbing pad
- Chemical resistant and suitable for use in temperatures down to -35°C
- Design Registration No. 335225 and No. 335226

■ Intermediate uprights
Visiplas Protector

■ Corner uprights
(Steel Protectors)
