Labelling, Identification and
Visual Management Solutions
For The Workplace

NUMBERING, AISLE & RACK IDENTIFICATION

Numbers & Letters

Our self-adhesive characters are printed black on yellow or black on white, delivering high visibility identification. They are simple to apply and are easily removable leaving no residue. Available in eight sizes in single character sheets or in packs of A-Z and 0-9.

Alternatively, our magnetic numbers and letters allow for fast and easy labelling on any receptive steel surface. Available in two tile heights, either 43mm or 23mm and with black digits on a white or yellow background.

Label Holders

Magnetic or self-adhesive label holders are supplied from stock in a variety of heights and in pre-cut lengths. Special sizes can be supplied on request. Each holder is supplied with a white card insert and a clear plastic cover strip.

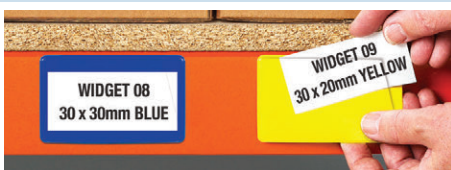

Ticket Holders

Updating locations has never been easier. These clear plastic holders with flexible pull-forward fronts allow easy loading for updating information. Barcodes can be scanned without removing the insert. Available with magnetic or self-adhesive fixing options, in lengths up to 3m.

Ticket Pouches

A range of cost effective ticket pouches that are available in five colours and two fixing options. Designed for use on racking or shelving. The clear front and bright coloured backing are suitable for identifying picking areas and for lean manufacturing.

Weight Load Notices

A range of printed notices detailing the procedures for rack and shelf loads. The range includes notices for shelving, pallet racking, cantilever racking, drive-thru racking and mezzanine floors. They all conform to the latest Health & Safety recommendations. These notices can also be overprinted in black with load information and company details.

Aisle and Bay Markers

These high visibility aisle and bay markers offer clear identification throughout the warehouse.

The bay markers feature a formed aluminium section with either a magnetic or self-adhesive edge, enabling the marker to be located onto steel racking without the need for drilling.

Aisle markers are either pre-drilled for cable tie fixing or with a magnetic or self-adhesive fixing. Both help to deliver precise aisle and bay locations for all to see.

Stock Level Identity

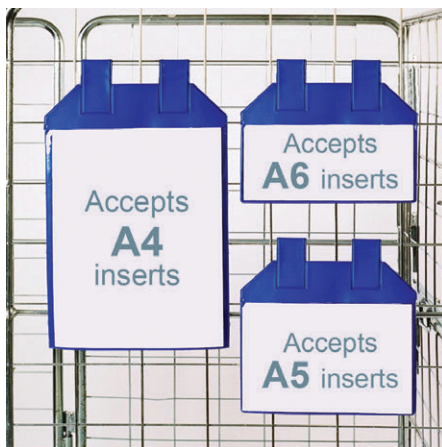

These indicators give an instant visual indication of stock. The wheel or slider system shows when stock is getting low. The indicator wheel is available with three fixing options, self-adhesive, magnetic or clip to suit different applications, whereas, the slider is ideal for use on shelving and can have a magnetic or self-adhesive backing. Product references, locations or barcodes can be adhered to both products for identification purposes.

Cage and Case Identification

Two different types of document pocket with clear view panels. The wrap-around pocket has long headers with a magnetic fixing and is suitable for wire mesh cages or any tubular structures.

The hanging pocket is for use on wooden crates and has a uniquely formed header that hangs over and grips the edge.

Wire Shelving Clip Holder

This holder uses a quick and easy to use “clip-on” system to identify locations on wire mesh shelving. This versatile holder can be used in three different formats straight for shelves that are eye level, approx 33° for lower shelves and approx 45° for the very bottom shelf enabling easy reading. The holder is reversed for high level viewing.

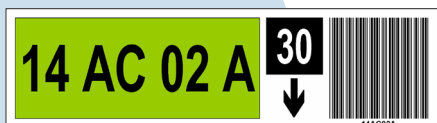

Code Labels

Modern warehouses require clear and precise identification. We are specialists in the design and manufacture of labels to meet your requirements.

We print adhesive and magnetic labels, barcode labels, multi-colour labels, upright labels, split beam labels, summary labels and more. Our customer service team will guide you through the process and tailor the labels to your needs.

Magnetic and Self-adhesive Information Labels

Our highly visible labels were originally designed to highlight Max UDL or SWL on shelving and pallet racking beams, but these labels can be used virtually anywhere and on most surfaces.

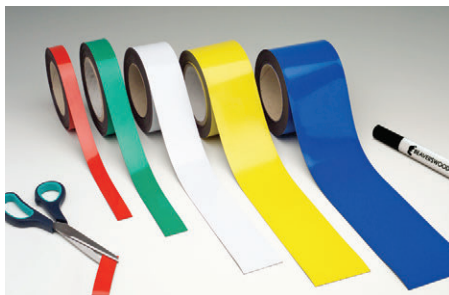

Simply select the size you require, confirm the text, pictograms, colour and quantity required. Four standard sizes are offered however other sizes are available.

Magnetic Easy-wipe Racking Strip

The magnetic easy-wipe racking tape allows the user to quickly and easily create re-usable labels for use on steel shelving and racking systems. The tape can be cut to the required length, written on with our wet wipe marker pen, then be cleanly removed using a damp cloth. Available in twelve sizes and six colours, the tape can be used for colour coding areas or enforcing a particular message.

Available

Floor Graphic Markers

A range of eye-catching, highly visible, floor signs that highlight warnings or special requirements. Printed on the underside of a tough clear plastic film and laminated with an aggressive adhesive, means that these signs can be used in a busy industrial environment. Available from stock with 38 standard designs, however, bespoke signs can also be produced when required.

Floor Identification Markers

These high visibility floor markers have been designed to cope with the daily stress and strain of a modern warehouse. All the markers incorporate a permanent aggressive adhesive backing and can be used not just on the floor but any dry, clean flat sealed surface. The 190mm diameter markers are printed in letters A-Z or numbers 0-10.

Floor Signals

Tough PVC floor signals that will make it quick and easy to mark out areas on a warehouse floor. Highlight pallet areas, walkways and traffic flow. Manufactured using a thin plastic membrane and laminated with an aggressive adhesive, they bond onto the floor surface. Available in six shape options and six different colours.

frames4floors®

Tough permanent adhesive colour edged PVC frames that enable a message or code to be placed and protected onto the floor. Manufactured using a thin plastic membrane, the frames bond onto the floor surface. The clear window allows for barcode scanning. Frames are available with either an A4 or DL size window and in six colour options.

WASTE AND RECYCLING

racksack® is the market-leading solution for waste segregation in the industrial work setting, providing a simple and cost-effective system that's easy to implement.

Waste management problems are easily solved with the racksack®. Suitable for most racking systems, the racksack® quickly fixes to the end of your racking. In a range of fourteen standard text designs and five non text designs, once full of waste or recyclables, the racksack® can be quickly and easily emptied.

General Waste GW White 	Mixed Paper & Card MP Blue 	Cardboard C Blue 	Plastic Only P Red 	Plastic Strapping PS Red 	Shrink Wrap SW Red 	Mixed Recycling MR Green
Metal M White 	Aluminium A White 	Wood & Timber WT Brown 	Building Material BM Brown 	Electrical E Magenta 	Glass GL Turquoise 	BLANK BK Blank

International Designs

Five new prints have now been added to the racksack® range. Visually communicative non text designs for worldwide use.

racksack® clear

The racksack® is now available with a clear front. The clear material helps identify when incorrect waste has been accidentally placed in the wrong segregation sack.

racksack®rollcage

Help keep your workplace neat and tidy. A big capacity double pocketed waste segregation sack for use with 800mm wide roll containers. The racksack®rollcage fits over the frame of the roll cage, but also has eyelets, so that the sack can be hung if required. Straps help secure the centre of the sack to the cage.

racksack®rollcageclear

Clear design provides security aid

Quick to secure

racksack®trolley

Keep your picking areas clean and tidy by fitting one of these two recycling sacks to your picking trolley. They are designed to hang over the handle of a 580mm wide trolley. Available in either single or double pocket versions. Made from tough waterproof polyester the sacks can adequately withstand the rigours of an industrial environment.

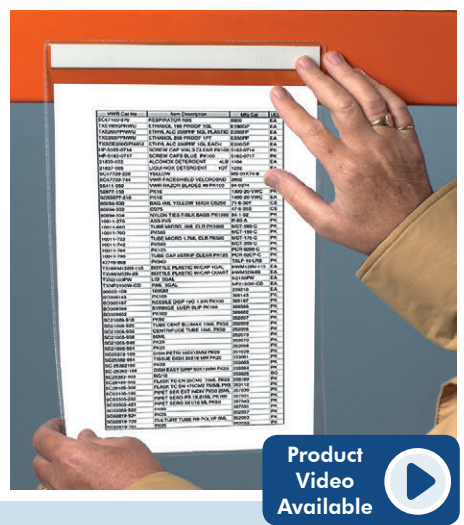

Can be overprinted for volume orders

DOCUMENT CONTROL

The use of **coloured products** are designed to enhance the communication of documented information. The colours can relate to the action that is applicable to the documentation displayed and will focus the mind on the importance of that information.

Product Video Available

Document Pockets

A range of industrial quality pockets for use with A3, A4, A5, A6 and A7 sized inserts in vertical and horizontal formats (other sizes and specials are available). Choice of magnetic, self-adhesive, tie-on and clip-on fixing options.

Rainbow Pockets

Make your display and important documentation stand out with these coloured document pockets. Available in two sizes and five colours, these pockets are designed to enhance the communication of documented information, perfect for 5S and lean management systems. Three different fixing options are available magnetic, self-adhesive and tie-on.

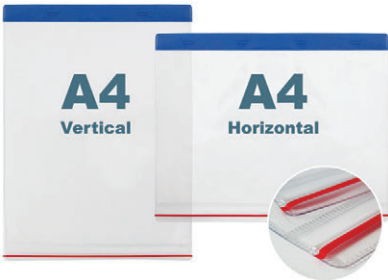

Product Video Available

Weather Resistant Pockets

Industrial strength pockets designed for external use with a press seal weather resistant fastening. The pockets have sufficient room to carry A4 sized paperwork, pens and other items that may be required. Perfect for keeping those important documents clean and dry. Available with magnetic, self-adhesive or tie-on fixings.

Wall Ring Binders and Covers

Keeping multiple pages of information readily available in a prominent visual position can sometimes be difficult, these 2 or 4 ring binder mechanisms are the answer. Magnetic or self-adhesive backed, the binder offers a vertical fixing system for either magnetic receptive boards, steel or sealed surfaces.

The colour coded covers work with our Hold-All® ring binders to give an attractive and highly visual finish. The cover features a front pocket that will accommodate an A4 sheet of paper, so a title panel can be added to the cover. Available in five stand out colours.

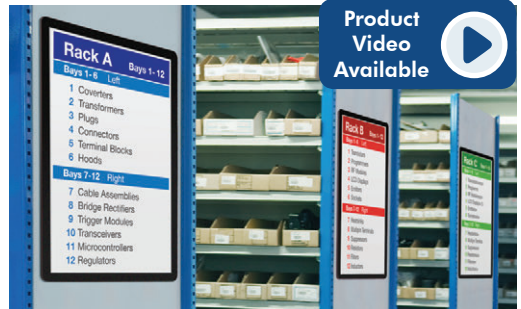

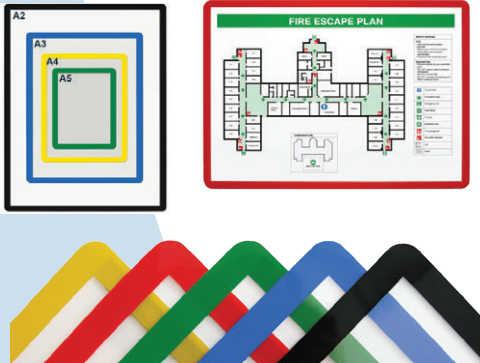

Product

Available

Our unique frames4docs® offer a colour coded visual method of document display, enabling you to frame any sign, chart or document in seconds.

Four sizes and five colour options available.

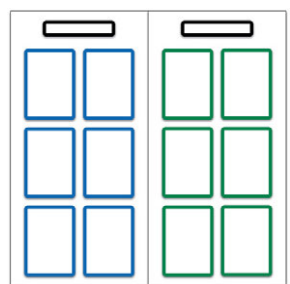

The frames can be used in vertical or horizontal format in a choice of magnetic or self-adhesive fixing and once positioned allow documents to be fixed and once positioned allow documents to be quickly changed and updated.

boards4frames®

This system offers an edgeless board, or a number of boards that can be sited together to create larger panels. Two board choices are available, magnetic receptive or non magnetic. Each pack contains six frames suitable for A3 size documents or two packs of six frames suitable for A4 size documents.

Five colour options of frames available.
